

Annual Strategic Objectives

2017 - 18

1. To develop the spiritual journey of all in our community, particularly our contribution to, and articulation of, the Common Good.
2. To facilitate the highest quality of learning through fully differentiated teaching and learning, improved student response to feedback, and a Growth Mindset philosophy.
3. To consolidate improved pupil Standards (attainment and progress) at KS5, and to maintain our KS4 whole-school Standards with no variation visible across the different pupil groups.
4. To develop Middle Leadership through the creation of a consistent set of expectations across the school.
5. To improve school attendance to 96.5% across all year groups.
6. To improve our classroom environment in every room with or without building work, but hopefully through a building plan to facilitate 6fe or more, including PSBP2, LCVAP-Science, re-orientation of the school Reception, conversion of A-Block, and refurbishment of K & J Block.
7. To further develop relationships across the community, including closer collaboration and federation with our Lea Valley Deanery Primary Schools; thereby being Academy ready.
8. To develop Leadership and Management at all levels, from Governance to the leadership of individuals.
